AfricanImpact

CONSERVATION

CONSERVATION

Wetland -2.5 hours

We continued to add gravel to the wetland at Base Camp.

CONSERVATION

Litter Picking – 4.5 Bags

We picked litter from the N2 along the P450 outside of the reserve...
And saw some cool caterpillars along the way!

CONSERVATION

Road Clearing - 927m

We continued to clear roads in 600 and Intibane West. We removed trees and branches that scratch both our faces and the vehicles- as well as relocated some massive trees blocking roads!

CONSERVATION

Mange Garden – 2.5 hours

We helped the mamas remove weeds in the vegetable garden that we started on Mandela Day in July. We also started to paint the crèche toilets.
